CAREER OBJECTIVE

A highly motivated Computer Science student at VIT Vellore with a strong foundation in programming and web development. I aim to apply my skills in Python, Java, JavaScript, Node.js, and more to real-world projects. With a CGPA of 9.74, I am focused on learning and solving problems efficiently.

WORK EXPERIENCE

Full Stack Web Development • Internship   May 2025 - Present
Ethnus By Codemithra, Virtual

Working on full-stack web development using MongoDB, Express.js, React.js, and Node.js. Building responsive web applications and gaining hands-on experience with REST APIs and deployment.

EDUCATION

B.Tech, Computer Science & Engineering   2023 - 2027
Vellore Institute of Technology, Vellore

CGPA: 9.74/10

Senior Secondary (XII), Board Of Intermediate Education-ANDHRA PRADESH   2023
Science

Narayana Junior College, Nellore

Percentage: 98.10%

TRAININGS / CERTIFICATIONS

Career Essentials In Generative AI By Microsoft And LinkedIn
Apr 2025 - May 2025

Microsoft, Virtual

Completed a 6-course learning path that introduced me to Microsoft Copilot, Generative AI, and Responsible AI. I developed a solid understanding of how generative tools work, their real-world applications, and the importance of using them ethically and responsibly. This course helped me explore how AI can boost creativity and productivity in professional settings.

PROJECTS

[Bonafide Requisition System ↗](#)
Jan 2025 - Mar 2025

A web application that enables students to send requisition emails to faculty for letter of recommendation approval. Built using the MERN stack.
I developed the HTML frontend, while the backend was handled by my teammate.
Key Features:
- Email requisition workflow for students and faculty
- Role-based access and verification
- Clear frontend-backend architecture for maintainability

SKILLS

- Python
- Object Oriented Programming (OOP)
- CSS
- Node.js
- Algorithms
- C Programming
- Java
- JavaScript
- React
- Data Structures
- C++ Programming
- HTML
- MongoDB
- Express.js
- Computer Architecture

EXTRA CURRICULAR ACTIVITIES

- Member – Emerging Talent Community by AWS Educate
  Duration: April 2025 – Present
  Actively participating in the AWS Emerging Talent Community, gaining knowledge in cloud computing and building foundational skills through hands-on modules.
- Participant - HackerRank and CodeChef Challenges
  Duration: March 2025 – Present
  Details: Solving data structures, algorithms, full-stack coding challenges on HackerRank ,CodeChef. Earning badges and certificates while improving problem-solving speed and accuracy. count no of letters and count

ADDITIONAL DETAILS

- Secured 1st rank in the branch of Computer Science in my 1st year in Vellore Institute of Technology with a GPA of 9.72 in 1st year
- Secured Appreciation Certificate by VIT with a CGPA of 9.74 in 2nd year
- Secured Certificate of Appreciation by VIT for maintaining 100 percentage Attendance
- Certificate of Participation in CodeCortex Hackathon conducted in VIT
- Secured Completion Certificate for courses Java and CSS in HackerRank
